Min. platform height	30 mm
Drive system	4 x 24 V screw drive
Power supply	110-230 V / 50-60 Hz
Voltage	24 V DC
Speed	18 mm/s
Aufstellungsort	Indoor
Colour	RAL 7016 
Emergency power supply	Included

SIMPLE, CLEVER, FLEXIBLE

The StepSaver is the only lift on the market with up to two stable bridging steps. As the name suggests, the usability of the stairs is not affected. They can be overcome by wheelchair users and still be used without restriction by other pedestrians. The StepSaver offers a quick and cost-effective alternative to retrofitting, especially in private homes.
